

We are very concerned about the partisan actions of Sinclair Broadcast Group. In our household, we have one Democrat, one Green and one Republican among those of us old enough to vote. You can imagine that we are not afraid of controversy in our political discussions.

However, Sinclair is a company that uses public airwaves and should not be allowed to dictate to affiliates that they provide an unbalanced view about any of the candidates without airing a balancing viewpoint about them all.

It is clear to the adult members of our household that given the unprecedented hatred and anger we hear preached daily on the broadcast media, the system the FCC has in place for the oversight and renewal of broadcast licences is NOT WORKING! We do not even let the children in household watch or listen to the broadcast media because it is such a poor example of appropriate civic values. We request, nay WE DEMAND that something be done about this as the FCC exists to serve the public interest. We wonder who is guarding the guardians?

Thank you,

The Crowell-Levin
